Request for Public Records (RCW 42.56)

Name of Requester Kyle Wenholtz		Phone Number 406-546-9210		Date September 11, 2012	
Address 3596 Wheelock Student Center		City Tacoma		State WA	Zip 98416

To assist us in answering your request accurately and promptly, please identify the records you wish to inspect by referring to a specific title, name, identification number and/or description. If copies are needed, please indicate which file(s) you would like copied. There may be a fee for copying.

I would like access to the Vessel Track data for the ferry system, particularly the information regarding vessel, departure time, expected departure, etc. A MySQL (or other) electronic database is most desirable, and data going as far back as possible would be best. If I can not be allowed read only access to the database, a straight copy would be more than fine. The data will be used for an undergraduate thesis project modeling the ferry system's timeliness. Data for the Vashon and Seattle areas would be most desirable, should I be limited to what data I can have access to. My email, the best way to reach me for this project, is kyle@krwenholz.com.

RCW 42.56.070 prohibits the Department of Transportation from releasing lists of individuals that are requested for commercial purposes.

I have read the above. I certify I will not use the requested records for commercial purposes in the event that a list of any type is included in the material being requested.
